Universal Rear Blades

Replacing both integral plastic as well as flat rear blades, the programme offers like-for-like styling with the OE wiper. OE plastic blades are replaced by an OE style plastic blade, sleekly designed to closely replicate the original. OE flat blades are replaced by a flat blade, offering the discreet styling and premium beam technology that the vehicle had when it was new. Whilst you benefit from improved coverage from a reduced SKU count, your customers still maintain original styling and performance on their vehicle.

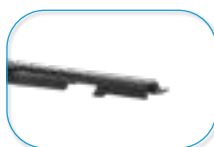

Both plastic and flat blade styles utilise a simple multi-fit system with a maximum of 5 loose connectors - meaning you can replace 32 "exact fit" style rear blades with just 9 SKU's!

Simply Power offers a range of in-car charging products for the most popular phone brands. Durable high-quality phone leads available in a range of colours and 12v adaptors with optimised quick charge technology. The range can be broken down into premium and standard editions of both USB chargers and braided cables.

We have an exciting addition to our

Super Chargers

The QC 3.0 USB and Type-C PD Car Charger is a powerful and versatile charging accessory designed to provide fast and efficient charging for various devices on the go. With Qualcomm's Quick Charge 3.0 technology, it offers rapid charging capabilities, allowing compatible devices to charge up to 4 times faster than standard chargers. Additionally, the inclusion of a Type-C PD port ensures compatibility with the latest USB-C devices, providing optimal charging speeds and power delivery.

Qualcomm Technology

Our QC Super Chargers power your devices faster than conventional charging, allowing you to spend less time connected to outlets.

Charge 2 Devices At Once

Our QC Super Chargers have been designed with multiple ports allowing you to charge 2 devices at once.

12 Month Guarantee

They come with a 12 month guarantee so rest assured knowing this high quality product is backed up by our year long guarantee.

Multiple Application

The chargers can be used with smartphones, tablets, sat navs and many other devices.

SUPER CHARGE

QC 3.0 USB

WHAT IS QUALCOMM® QUICK CHARGE™ TECHNOLOGY?

Fast charging technologies are becoming increasingly common, and Quick Charge is one of the most frequently used. Qualcomm® Quick Charge technology powers your devices faster than conventional charging, allowing you to spend less time connected to outlets.

FAST
CHARGE

*Charge up to 4 times faster than conventional 5W chargers. Based on Qualcomm® Quick Charge™ internal tests charging a 2750mAh fast charge battery (1.5C charge rate) and using the maximum power for a thermal limit of 40C for all charging implementations. Charge time based on 0% to 50% (August 2015).

THE BENEFITS OF QUICK CHARGE

When paired with compatible devices, a Quick Charge-enabled charger delivers more power, allowing the connected device to charge faster. As one of the most widely used of the fast charging technologies, Quick Charge is already in many of your favorite smartphones. If your smartphone is Quick Charge 3.0-compatible, you can charge up to 80% in just 35 minutes.*

To futureproof your chargers, each new Quick Charge generation is backwards compatible, meaning it will work with the generations that came before.

Engine Maintenance – Maintenance products protect the engine from unwanted deposit buildup. These products help maintain engine performance, power and efficiency.

Engine Treatment – Cleaning products treat the engine and reduce problems associated with deposit buildup. Cleaning products remove unwanted engine deposits and improve performance, efficiency and power.

FUEL ADDITIVES FOR PETROL ENGINE

MULTIFUNCTION TREATMENT

Solves engine malfunctioning problems

Use it regularly: it helps extend an engine's useful life, improves efficiency, reduces fuel consumption and reduces polluting emissions. It eliminates ignition problems and improves engine performance; consumption is reduced, power remains unaltered, the exhaust is cleaned. For leaded and unleaded petrol cars.

- It ensures cleanliness and the absence of carbon deposits in the carburetors, injectors, valves and the entire fuel system in general.
- It improves combustion.
- Cleaner exhaust gases.
- It prevents corrosion.
- Excellent water tolerance properties.
- Chlorine free.
- It preserves the efficiency of the fuel system.
- Repeat the treatment about every 2000km.

Ideal also for Stop/Start engines.

MAINTAIN

- ✓ Used every 2000km
- ✓ Stops deposit buildup
- ✓ Maintain engine performance
- ✓ Maintain efficiency

CLEAN

- ✓ Used every 6000km
- ✓ Cleans buildup of deposits
- ✓ Improves engine performance
- ✓ Improves efficiency
- ✓ Fix minor engine problems

COMPLETE CLEANER

Regenerates the engine, enhancing performance

Cleans the entire fuel system. Protects the discharge valves of modern high performance motors.

- Increased fuel economy
- Improved power and acceleration
- Reduced emissions
- Excellent engine life
- Superior combustion chamber deposit control
- Good demulsibility
- A rating corrosion protection
- Low viscosity for easy handling
- Excellent cold temperature intake valve protection
- Repeat every 6500km

Ideal also for Stop/Start engines.

INJECTORS CLEANER

Reduces consumption and service costs

The product is concentrated and is based on a mix of special additives and solvents that:

- Removes deposits on injectors without disassembling the system
- Prevents rust on injectors from forming
- Reduces HC, CO and exhaust gas emissions
- Cleans the entire fuel system
- Suitable for every gasoline engine
- Reduces hard cold starting, irregular idle, engine jerkiness
- Safe for catalytic converter
- Reduces fuel consumption
- Repeat every 5000km

Ideal also for Stop/Start engines.

FUEL ADDITIVES FOR DIESEL ENGINE

MULTIFUNCTION TREATMENT

Recommended by FIAT - LANCIA - ALFA ROMEO - CTR n° F009.E13

Solves engine malfunctioning problems

Multifunction additive for diesel fuel for cars and heavy-duty vehicles, diesel and turbo diesel. Used regularly all year round, the product improves the efficiency of the engine, extending its useful life; it thoroughly cleans and descales injectors, improves the performance of the engine and the power, raising the cetane number of the diesel fuel.

- It impedes wear on the pump, even with low sulphur content diesel.
- It ensures the necessary lubrication of the diesel pump.
- It cleans and protects the injection system from deposits and corrosion.
- It improves combustion.
- It reduces smoke and exhaust fumes.
- It aids cold starts.
- It reduces engine noise.
- Chlorine free.
- Repeat the treatment about every 2000km

Ideal also for Stop/Start engines.

COMPLETE CLEANER

Regenerates the engine, enhancing performance

Premium multifunctional additive package for modern diesel technology. Cleans the entire fuel system. Raises the cetane number. Provides excellent corrosion protection for engine parts. Compatible with biofuels. Cleans and protects injectors from deposits resulting in:

- Increased fuel economy
- Improved power and acceleration
- Reduced emissions
- Excellent DI, common rail performance

Provide a boost of up to 2 cetane numbers in your vehicle delivering:

- Reduced ignition delay
- Reduced engine noise
- Reduced smoke emission
- Lower engine vibration

Ideal also for Stop/Start engines.

INJECTORS CLEANER

Recommended by FIAT - LANCIA - ALFA ROMEO - CTR n° F009.E13

Reduces consumption and service costs

Designed for the latest generation of engine. Special TDI, HDI, CDI, DCI, JTD. Cleans and removes deposit quickly from injectors and whole common rail fuel system.

- Improves the lubricity of the diesel fuel
- Removes deposit on injectors without isassembling the system
- Cleans the entire fuel system
- Prevents rust on injectors from forming

Cleans and protects injectors from deposit resulting in:

- Increased fuel economy
- Improved power and acceleration
- Reduced emission
- Excellent DI, common rail performance
- Reduced ignition delay
- Reduced engine noise
- Reduced smoke emission
- Lower engine vibration

Compatible with biofuels. Suitable for catalytic systems. Repeat every 5000km.

Ideal also for Stop/Start engines.

DPF TREATMENT

Keeps the particulate filter clean

The product contributes to the reduction of particulate matter and carbon deposits keeping the particle filter "FAP/DPF" clean and efficient for a longer time. This performance is due to the newest technology adopted allowing quick cleaning of the supply system, improving the ignition speed and increasing the lubrication.

- It extends the FAP and DPF particulate filter maintenance intervals reducing the regeneration cycles
- Extreme cleanliness with a single treatment on a single tank of fuel. XUD-9 and CEC DW 10 Tests
- Quick cleaning of deposits on injectors
- It optimizes the combustion process
- It reduces the emission of harmful substances by optimizing the exhaust gases opacity values
- It gives the engine its original power
- It prevents foaming when refuelling
- It contributes to "fuel economy" (reduction in fuel consumption)
- Compatible with biodiesel currently in distribution
- It does not contain silicone
- Repeat every 5000km or at every programmed service.

Ideal also for Stop/Start engines.

LOCKS 200ml

Lubricates and protects over time, resistant to bad weather conditions and washout.

APPLICATIONS

Ensures the efficiency of locks over time, both in the case of frequent use (anti-wear action) and occasional use (anti-seize action).

FEATURES

- for indoor and outdoor applications.
- Protects mechanisms from moisture, mist and salt.
- Does not drip, does not soil.

Stoner Car Care®

Invisible Glass®

In 1942 chemist Paul Stoner used his expertise to help industrial customers solve their most difficult problems, including releasing tyres from moulds. Today, still family owned, Stoner Inc. develops and manufactures high-performance automotive appearance products for auto enthusiasts and the professional detailing market.

Its two brands, Stoner Car Care and Invisible Glass, are manufactured in house to such high standards that it was awarded the Malcolm Baldrige National Quality Award for performance and quality excellence, and globally the company is recognized for world-class customer service and technical support.

CLEAN & WASH

STONER CAR CARE

Stoner Car Care is one of America's top car care and appearance brands. These cleaning products, protective waxes & finishes are well known and highly regarded throughout the professional detailing industry as products that outperform the competition and produce great results.

TARMINATOR TAR & SAP REMOVER

Tarminator easily breaks down the complex molecules found in tar, sap and asphalt. Quickly dissolves and loosens tar, sap and asphalt from auto paint. Cleans painted surfaces in preparation for waxing. Strips off wax and silicones but remains clear-coat safe.

Invisible Glass®

HIGH ENDURANCE WIPER BLADES DESIGNED TO LAST UP TO 4X LONGER!*

NEW

The durability of silicone rubber with the protective power of ceramic:
Meet new Ceramic Silicone™ wiper blades from Invisible Glass!

The **exclusive ceramic coating** used in Ceramic Silicone™ helps to protect the wiper blade rubber from harmful UV & ozone rays, as well as protecting the rubber edge from premature wear – resulting in a wiper blade that **lasts up to 4x longer*** than standard blades!

The durable silicone rubber element not only performs in extreme temperatures, but also applies a rain repellent coating to the windshield, repelling water from the glass and allowing it to simply bead off.

WATER REPELLENT COATING

TESTED TO 2M WIPES

CERAMIC COATED SILICONE RUBBER

Ceramic Silicone™ wiper blades are constructed with a state-of-the-art beam blade design, ensuring maximum windscreen contact & even pressure distribution along the complete blade length. The integrated asymmetrical WindBeater™ airfoil resists buffeting and wiper lift even in windy conditions and at high speeds.

Available in lengths 14" – 28" and suitable for all main wiper arm types.

*Compared to OE standard (SAE J 903) of 500,000 wipe cycles

Independently tested by ARDL.

AUTOBAR.®

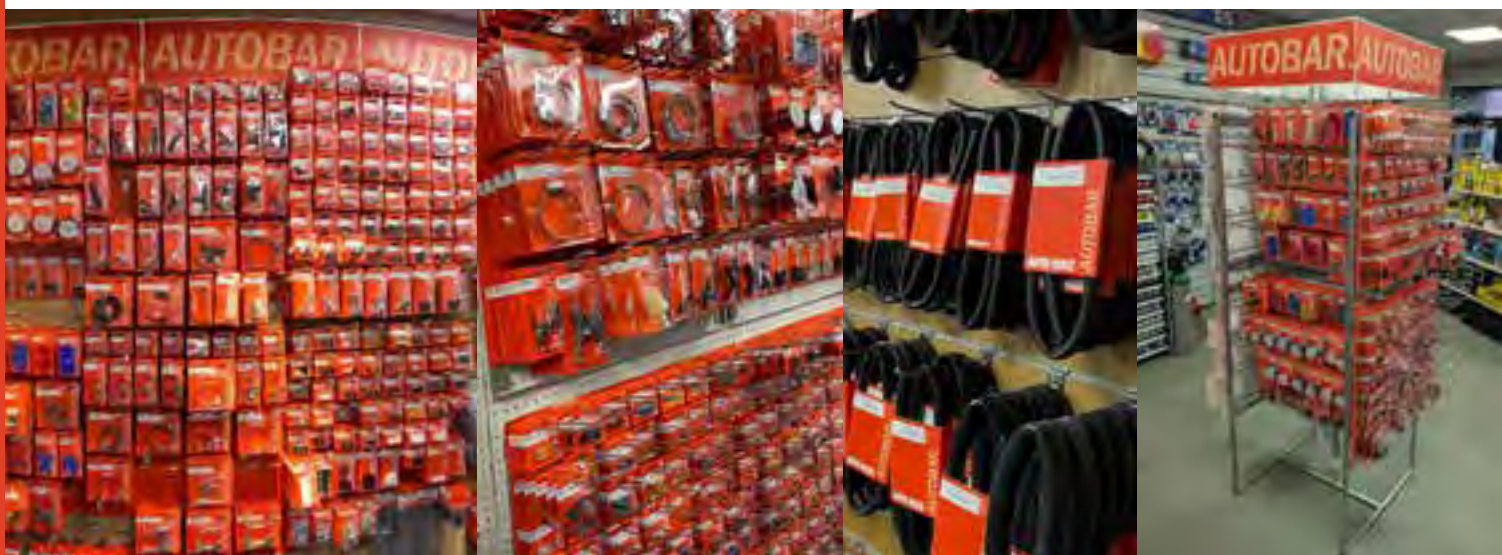

TECNIKS

Between them, the **Tecniks** and **Autobar** brands carry thousands of bulbs, fuses, connectors, switches, cables, battery fittings, screws, washers, nuts and bolts, hose clips, number plate fittings, fuel pipes, exhaust clamps, trim clips and so on to serve the car repair market.

JRP's original own brand Tecniks, now over 40 years old, continues to provide a wide range of the highest selling consumables all in bulk packs.

This is complimented by the Autobar range, owned by JRP since 2019, which delivers these products in single or small quantity consumer packs for retailers.

With products packaged in both the UK and Far East for proactive stock reliability, and an Autobar rack program of fast selling high profit parts, the Autobar and Tecniks brands are the perfect compliment to your existing ranges.

The Autobar Retail Programme

The Autobar retail programme is for all retailers to ensure their available floor space is producing maximum sales at the best margins. Items that many shops keep "below the counter" are given a new lease of life on tailored high impact stands that will increase both the sales ratio and the achievable sales value of individual items.

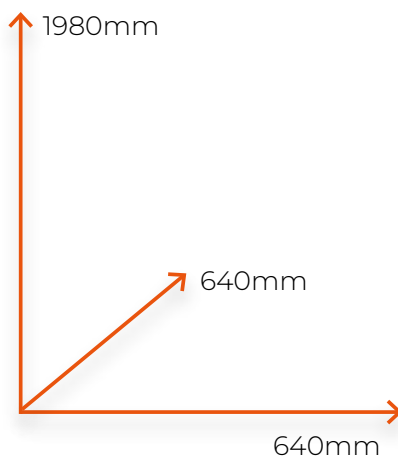

Encourage customer self-selection from a pre packed well placed display stand that commands a higher ticket price.
